ABOUT VIVALYTE

Vivalyte offers innovative led solutions for architecture and branding visualization. With a large stock in Europe and a guaranteed supply ability , we provide you with the best choice of lighting for your creative projects. Building on more than 10 years of expertise, Vivalyte has been assisting creative professionals in media, retail, events, museums and architecture to wow their customers and public with budget-friendly large scale visual impact they can rely on.

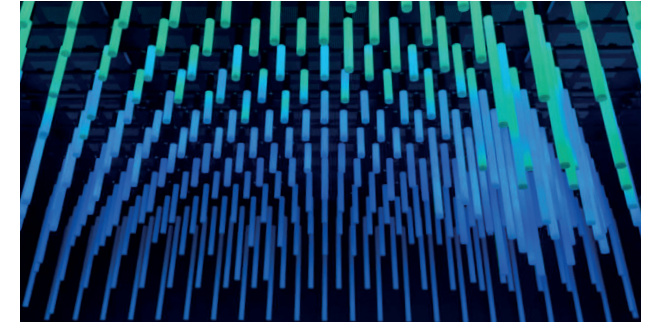

CREATIVE ARCHITECTURAL SURFACE & LINEAR ILLUMINATION

ILLUMINATION FOR CREATIVE PROFESSIONALS

As an expert in innovative lighting development, Vivalyte is the ideal partner to help you produce the light solutions you need. Our team of engineers can build on years of experience in research, conception and development of innovative lighting concepts. Whether you want to highlight the prominent lines of a building, opt for large-scale eye-catching branding campaigns, or set the right mood in a museum, you can build on our experience.

Creative architectural illumination

Outdoor neon, façade, visual lighting object, signage

To make buildings stand out, you sometimes need a special touch. Something distinctive that perfectly suits the way you wish to light up interiors and exteriors. A lighting solution that immediately feels right for the job.

- **Deep technical knowledge**
+10 years of innovative lighting.
- **Solution-driven**
We use LEDs, but build impact.
- **Flexible partnership**
We realize your dream together.
- **Reliable supplier**
Unsurpassed customer satisfaction.

Comfortable living & working spaces

Light ceiling, walls, surfaces, lines, objects

People need to live in the spaces we design. That's why Vivalyte offers optimized solutions to architects and designers. Build more pleasing experiences with luminous ceilings, light walls, and subtle light accents).

- **Stretch ceilings and walls**
Immersive illumination experience with unique interaction between light and architecture.
- **Full-spectrum light**
Approximate the colors of sunlight. Exceptional color rendering and brightness.
- **Acoustic lighting panels**
Make loud spaces more comfortable and absorb reverberation and background noise.
- **Linear Accent illumination**
Practical profiles with silicone finishing. Diffused light is easy on the eyes.

Dynamic and interactive lighting

Bring your visual to life in a cost-efficient way. Dynamic lighting lets you tell a story with a single printed fabric. Dynamic LED panels behind a graphic can highlight your brand and message in a variable way to create amazing stopping power.

- **Large-scale**
Affordable strong impact on large dimensions.
- **Storytelling**
Pull people into your message.
- **Creative branding**
Unlimited variations.
- **Surprising & fun**
Grab attention with unexpected elements.

LEDs light engines

Rely on quality LED illumination for stress-free integration with a long run time and a low energy consumption. With a high Color Rendering Index (CRI), our ultra-efficient lightboxes are a great way to bring a visual to life. Equipped with LED lights integrated in the back or on the sides, they perfectly illuminate your brand message, making it clearly visible throughout the day.

- **Seamless integration**
Worry-free installation.
- **Save energy**
World-top high-efficiency LEDs.
- **Reliable illumination**
Keeps working dependably.
- **wide range of LEDs**
Many options available.

Democratized light control, dynamics and interactive

We love highlighting creative projects. Literally. Using specially designed light to draw attention to the organic lines of buildings or make passing people look up at an installation or message. We make this accessible to anyone with a good concept.

- **Low cost of control**
- **Light, Video & Music integration**
- **RGB, DMX, SPI, microcontrollers**
- **Creative lighting with almost no limitations**
- **Interactive device integration**
